

Acceptable Use Policy (AUP)
Wadena-Deer Creek Public Schools

Limited Education Purpose

The Wadena-Deer Creek School District is providing students and employees with access to the school district computer system, which includes Internet access. The purpose of the system is more specific than providing students and employees with general access to the Internet. The school district system has a limited educational purpose, which includes use of the system for classroom activities, educational research, and professional or career development activities. Users are expected to use Internet access through the district system to further educational and personal goals consistent with the mission of the school district and school policies. Uses which might be acceptable on a user's private personal account on another system may not be acceptable on this limited-purpose network.

Use of System is a Privilege

The use of the school district system and access to use of the Internet is a privilege, not a right. Depending on the nature and degree of the violation and the number of previous violations, unacceptable use of the school district system or the Internet may result in one or more of the following consequences: suspension or cancellation of use or access privileges; payments for damages and repairs; discipline under other appropriate school district policies, including suspension, expulsion, exclusion, or termination of employment; or civil or criminal liability under other applicable laws.

In order to ensure smooth system operations, the Wadena-Deer Creek School District has the authority to monitor all communications. Staff and students should have a limited expectation of privacy when using the system.

A complete version of the Wadena-Deer Creek School District's Policy on Internet Use may be accessed on their website at www.wdc2155.k12.mn.us.

.....

SCHOOL DISTRICT FACULTY

I understand the Wadena-Deer Creek School District has policies relating to safety and acceptable use of the school district computer system and the Internet, and I agree to abide by them. I further understand that should I commit any violation, my access privileges may be revoked, school disciplinary action may be taken, and/or appropriate legal action may be taken.

I agree to promote these policies with students. Because students may use the Internet on the school district computer system for individual work or in the context of another class, I cannot be held responsible for students' use of the Internet on the network. As a supervising teacher I do agree to instruct the student on acceptable use of the Internet and network and proper network etiquette.
